

# NORMALIT

## LED strips

We offer a complete professional solution in decorative lighting using LED strips.

High brightness 24V monochromatic or RGBW LED strips for indoors (IP20) or outdoors use (IP67) and perfect to illuminate and decorate any domestic, commercial or professional atmosphere.

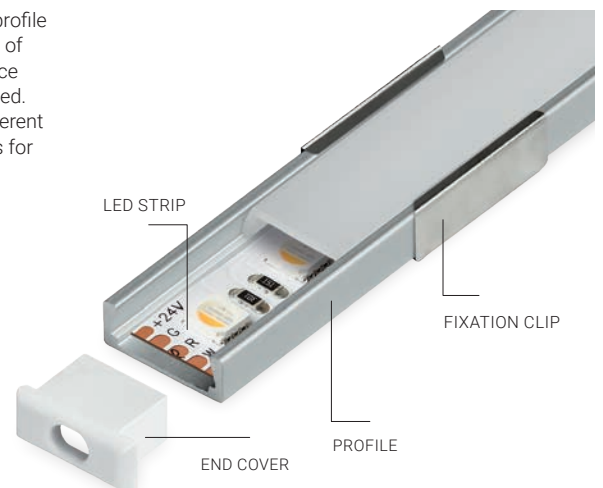

Wide range of profiles, perfectly adapted to the needs of any project.

Normalit supplies a solution which is fully customized and ready to install solution: LED strip + Profile + Cover + Accessories.

Check the supply conditions.

## Profiles

We offer different types of profile solutions for different types of executions: recessed, surface mounted and corner mounted. We also offer profiles in different heights, and wider housings for IP67 strips.
